

WHO ARE WE AND WHAT DO WE DO?

At SunModo, we believe in the innate human nature to improve the world and support the growth of those around us. Our culture is open, forward moving, innovative, and energized. We give people the opportunity to be their best and do their best work in a fast paced, collaborative, and creative environment. This is a place where people with purpose, mastery, and internal drive are met with tremendous growth potential, for themselves and our rapidly growing solar industry. As a manufacturer of solar racking solutions, we've created a loyal following because of our unparalleled robust product offerings, and attention to professional service. Our corporate mission is to drive down the total cost of solar installation, and we accomplish that with the best talent in the PV industry. We know that smart, accomplished people are the reason for our success. It is because of our team members we've been providing the best mix of quality and low-cost products to the market. The question is, will you be the next one to join our exciting company?

WHAT IS THE IMPACT OF THE PV SYSTEM DESIGNER/DRAFTER?

We are growing in a fast-paced solar industry and are looking for a PV System Designer/Drafter to prepare layout drawings for photovoltaic system installation. You must be able to operate in a fast-paced environment and have a passion for continuous improvement.

ON ANY GIVEN DAY, YOU COULD BE DOING THESE THINGS:

- Coordinating with Sales and Engineering to develop preliminary design layouts.
- Providing progress reports and status updates to Clients and Management.
- Working with Engineering, Sales and Customers to support the appropriate selection of racking hardware.
- Maintaining contact with Suppliers through Purchasing to ensure parts received meet quality standards.
- Shepherding new Customer through the product selection process and the use of online tools.
- Serve as point-of-contact for Customers during each project and troubleshooting issues relating to installations.
- Handling multiple projects simultaneously at various stages of development and installation.

WHAT DO WE EXPECT FROM YOU?

Knowledge

- Associate Degree or formal training in Mechanical Design or related discipline.
- Must have three years minimum of 2D AutoCAD experience with one year of Inventor modeling.
- A minimum of five years of experience in mechanical design/drafting.
- A working knowledge of PV layout and design tools used in PV system design is a plus.
- Experience in part design, dimensioning, tolerancing and the creation of assembly drawings and bill of materials.
- Experience working with MS software, including Outlook, Word and Excel.
- Knowledge of building and roof structure, NABCEP PV Installation professional certification is a plus.

Attributes

- Must possess excellent interpersonal skills, a collaborative style and the ability to communicate effectively.
- Excellent critical thinking skills to make good decisions (and thrives) in a fast-moving environment.
- Ability to adapt to a rapidly changing industry and environment.
- Ability to develop and communicate sound lines of reasoning.
- Highly organized and unbelievable follow-up and follow-through.
- Ability to perform under pressure, work with a wide variety of constituents and meet deadlines.
- Requires a minimum of supervision and is capable of strategically prioritizing multiple tasks.
- Approach to work that is positive, solution-oriented, optimistic and enthusiastic.
