Damaging roof shingles used to be one of a solar installers’ worst challenges.

Now, the easy, affordable solution is NanoMount™, SunModo’s newest solar mounting innovation.

The mount consists of only two components and eliminates the need for lifting shingle, thus significantly cutting down the installation time.

**The NanoMount Advantage**

- The fastest roof attachment in solar
- Versatile mounting options including direct-to-decking
- Eliminates the need to lift shingles and prevents damage to shingle
- High-Velocity Hurricane Zone Approved - Passed TAS 100 (a) Wind-Driven Rain Test
- All materials are compatible with roof shingles
Key Features of NanoMount™

5 levels of protection against water penetration

- 360-degree positioning, serrated surface on both sides for rail mounting
- Versatile mounting option includes direct-to-decking for fast installation
- Integrated Ultra Soft Weather Resistant silicone gasket
- Alignment markers enable easy installation
- Aesthetically pleasing unibody aluminum cast construction
